Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-4, drawn to a friction transmission unit, classified in class 476, subclass 72.
 - II. Claims 5-8, drawn to a method for designing a friction transmission, classified in class 29, subclass 893.

The inventions are distinct, each from the other because of the following reasons:

Inventions of Group I and Group II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the product in claim 1 can be made by another process as defined by claim 5, such as computing the gap z based on another process other than an elastic dynamic expression.
